Frying table GL 3060

Convenient frying table in stainless steel design with two heating zones and adjustable thermostat that can reach 250°C. The frying table is easy to handle and understand, has good capacity and is easy to clean thanks to its round edges. Perfect for burgers and our tasty sausages with skins, but can also be used for other protein. Instructions and training of new customers are not included. Contact our sales representative for more information about which machines are right for your business.
